Tips To Prevent Your Bicycle From Getting Stolen

- Never leave your bike unattended
- Always lock your bike to a secure object
- Consider bringing your bike inside overnight if you have room
- Choose a case-hardened lock, like a “U-lock”
- Never lock through any part of the bike that can easily be removed, like the seat or handlebars
- Remove any loose items from your bike before leaving it, including items from baskets and saddlebags
- Bring your helmet with you
- Take a picture of your bike to ID later if necessary
- Engrave your own personal marking that can be identified by you
- In the event your bike is stolen, report it immediately to police with as much description as possible
